## MARBLE MARVEL

From prolific Sydney designer Greg Natale comes the new Marmo range of mosaics, made from a medley of Italian marbles. "Stylistically, the pattern repeats are contemporary, but they consist of stones hewn from the earth that are classical and timeless. I'm excited about how people use these in their spaces," says Natale. Featuring his signature geometric patterning, the mosaics are supplied in 30x30cm sheets and start at \$329/m<sup>2</sup>, Greg Natale Design; [www.gregnatale.com](http://www.gregnatale.com).
